

Protection, Multiplied.

The Game-Changing Workrite FR/CP Lab Coat

STYLE NUMBERS:
MEN'S 353CH-45
WOMEN'S 354CH-45

STYLES FOR MEN AND WOMEN

The new FR/CP Lab Coat, featuring Westex® ShieldCXP™, brings together the latest innovations in lab safety to protect wearers against multiple hazards:

Flame Resistant (FR)

- Nomex® IIIA fabric prevents clothing ignition during short-duration thermal incidents and emergency exposure to flame

Chemical-Splash Protection (CP)

- ShieldCXP repels small amounts of liquid chemicals that are either dropped or splashed on the fabric
- Resists penetration and wicking of an inadvertent, secondary liquid chemical splash

The first of its kind, this lab coat not only provides multi-hazard protection, but it's also lightweight, breathable and comfortable to wear. For more information, go to workriteFRCP.com*.

Westex® ShieldCXP protects against inadvertent chemical splash

Fitted styles for women

Black lay-down collar for easy recognition as a CP lab coat

Splash-resistant pass-throughs

FR-only knit cuffs – safer than typical open-cuff design

Concealed snap front and neck closures

UL certified to NFPA 2112

Three pockets, including two lower pockets with snap front closures
